Organic. Authentic. Ours.

WE ARE COFRUDECA.

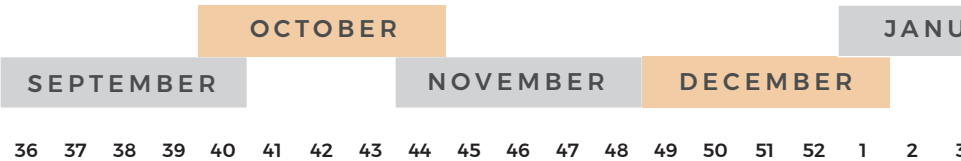

COFRUDECA BIO Coop. V. is an organic production cooperative located in Bèlgida, in the heart of the Vall d’Albaida (Valencia). Since 1986, we have been committed to organic farming, even before official regulations existed.

We cultivate **citrus fruits, stone fruits, persimmons, and pomegranates**, always under organic certification (CAE-CV, IFS, BRC, DEMETER, among others) and with a strong commitment to **sustainability, soil respect, and biological pest control**. We believe in a living, responsible agricultural model in harmony with nature. We have a warehouse with the capacity to pack up to 25 million kilos, using 100% **biodegradable packaging**.

Our production extends throughout southeastern Spain to offer a **wide calendar**, harvesting at the optimal point, and fruit with exceptional flavor. **Our logistics allow us to reach any destination.**

We do this because we truly believe in it: we want to leave a better world for future generations and be your best ally in the development of the organic market.
