SOLUTIONS

INTEGRAL QUALITY SERVICE

Industrias Iname is part of the Basque Metal Group, and our mission is to offer quality, tailor-made solutions at competitive prices. Our state-of-the-art machinery, team of highly qualified professionals and over 30 years of experience in the sector help us ensure a comprehensive quality service.

At our 2750 m² plant we have 14 machining centres, 10 CNC lathes and all the necessary machinery to provide an efficient, precise and quality service. Our services include the design plan carried out with our customers, the subcontracting of complementary services such as heat treatments or even the management of shipments.

WE OFFER AN INTEGRAL TAILOR-MADE SERVICE

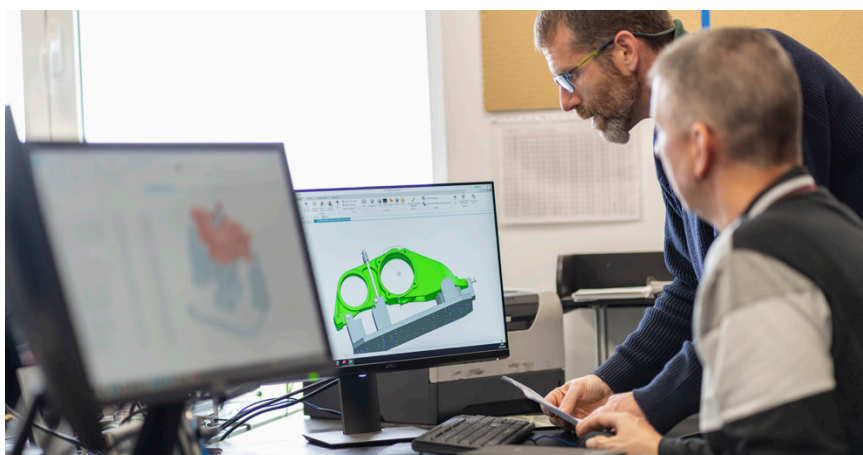

- Assessment and cooperation in design
- High precision manufacturing and machining
- Assemblies
- Management of sucontracts
- Export

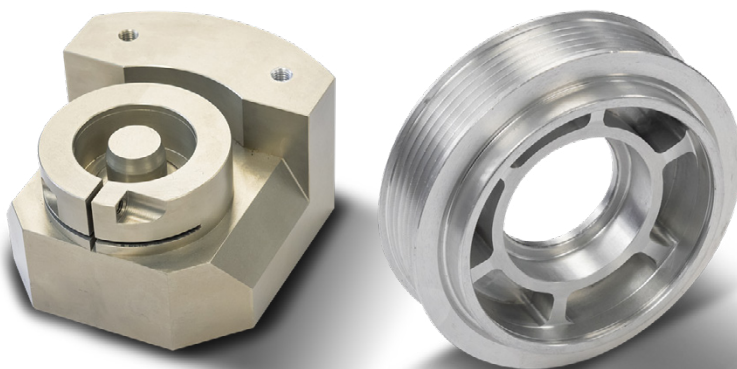

MATERIALS

We make parts up to 800 kg by machine from the following materials:

- Iron
- Steel and stainless steel
- Aluminium and alloys
- Copper and alloys
- Polymers
- Forge

We want to be a first-line supplier of fully integrated solution for customer needs
