AEROSPACE AND DEFENCE INDUSTRY

Your technological drive

Sallén aviación

INDUSTRIA AEROSPACIAL Y DEFENSA

OUR STORY

Sallén Aviación was founded in the early 1980s and its main industry was the development and manufacture of gyroplanes. Over the years, the company has transformed itself into a modern, cutting-edge industry by becoming involved in aerospace and defence programmes.

Sallén Aviación has:

- **Solid experience** in the manufacture and assembly of mechanisms, hydraulic actuators, structural parts and various engine parts, etc. for different programmes.
- **Personnel involved** in manufacturing and quality assurance.
- Flexibility for the production of large and small series.
- **Development capacity** in industrialisation.

CUSTOMER-ORIENTED

focusing our efforts on customer satisfaction, providing solutions and quality service.

INNOVATION

continuous improvement to achieve maximum quality.

RESPONSIBILITY

developing best practices that strengthen the sustainability of the company and its environment.

*In addition to the
technical resources,
Sallen Aviación
has a young, well-
prepared and
human team
that is constantly
developing*

OUR **ORGANISATION**

Technical office

Metrology division

Machining

Sheet metal and boilermaking

Welding

Mounting and assemblies

TECHNICAL **RESOURCES**

- **CNC Precision machinery.**
- **Electroerosion / Grinding.**
- **Sheet metal division (bending, riveting, etc.).**
- **Welding division.**
- **Metrology Division.**
- **Precision Mechanisms Assembly Division.**

Room equipped with temperature and humidity control for specific assemblies.

Development and manufacture of special tools for riveting, folding and bending processes assemblies.

Finished product warehouse managed by the FIFO concept, guaranteeing product traceability and preservation and the absence of foreign objects in the parts (no FODs).

CERTIFICATIONS OF **QUALITY**

Sallén Aviación is certified by:

- **UNE EN ISO 9001:2015** and **UNE EN 9100:2018** standards.
- **Pratt & Whitney LCS** certification.
- **Certified personnel** for the elaboration and approval of manufacturing process sheets, purchase and technical acceptance of raw materials.
- **AIRBUS** certification approved for the assembly of bushings and silicone sealants.

*We have the **Pratt & Whitney LCS Certification**, which guarantees the traceability control of raw materials and the product as a whole throughout its manufacture, thus optimising the aeronautical supply process.*

Extensive experience in **mounting** and **assemblies of mechanisms** for various programmes such as:

- Passenger doors: **Airbus A330-A340**.
- Countermeasure dispenser system for military aircraft **A400M**.

Considered a **strategic supplier** for several of our customers:

- We participate in various programmes for the following engine ranges: **Rolls-Royce** and **Pratt & Whitney** engine ranges, as well as military programmes; **Eurofighter**, TP400.
- **Boeing** Hydraulic actuator programme.
- **CN235 / C295** Airframe and fuselage of the aircraft.
- **ARIANE 6** Programme.
