

We **create** chemistry

More than a strategic supplier, a key partner.

At Tamar we have been **constantly evolving** for more than 20 years, with flexibility and adaptability as the company's identifying values.

We are committed to **advanced technology** and **renovated facilities**, which has allowed us to increase our production capacity by 40% in the last five years. We invest in **R&D** to develop new products, a differential value of Tamar in the market.

“

Quality without limits or borders: we reach more than 50 countries in three different continents with maximum satisfaction guarantees.
