

We have the resources,  
so you have the solution.

# ABOUT US

**KYP is a company, created in 1992, specialized in the manufacture of machines to produce pharmaceutical packagings.**

Our machine produce up to 6,000 ampoules/hour, with the best quality and the minimum rejection on the market.

KYP offer you the complete solution, starting on the design of your factory, installing your machines and finishing with the training to your team to start the production. Our machines are completely configurable depending on your need, to produce all kind of ampoules.

KYP provides those services to the largest and most important groups and companies all around the world. The dynamism and entrepreneurial spirit lead KYP to its early implementation and consolidation in the ampoule market. Today it has a market covering more than 50 countries on the 5 continents.

**KYP's progression has been an undertaking for growth and improvement of its products and services.**

Some of these improvements are: an automatic tube feeder, hot end system, cold end system, OPC system and online client support department.

KYP has had 150% growth in its facilities, so its production has been more than tripled in the past 5 years. KYP has only doubled its workforce in the last 5 years, so its productivity has significantly improved.
