

## DAILY INNOVATION, SINCE 35 YEARS AGO

"Perfect aesthetics are not enough, they must also be smart"

Since our beginnings, we have distinguished ourselves as a dynamic and constantly evolving company. In 1981 we were pioneers in Marbella, an area with a high concentration of demand in residential automation and control systems, serving international customers with high levels of expectations.

At present, we have developed an in-house database of know-how and thanks to our advanced levels of expertise and specialisation we have expanded our horizons by positioning ourselves as leaders in the area. As a result, we have provided services throughout Spain and designed projects for implementation in Europe, Asia and Africa, adapting ourselves to the technical requirements and cultural conditions in each of our business lines.

We have celebrated nearly four decades marked by our vocation and dedication to service, reflected in the excellent quality of the results obtained and the satisfaction of our customers. All thanks to our services that range from project design and implementation to consulting and installation work with the final maintenance of the facilities and, of course, by allowing our customers to make individual choices among any of these services as well as providing tailor-made offers according to their needs.

Porque hay muchas formas de ver la energía...

**Schneider**  
**Electric**

A photograph of a modern, multi-story house at night. The house features large glass windows and doors, some of which are illuminated from within, showing a glimpse of the interior. A large, rectangular infinity pool extends from the edge of the property, reflecting the night sky and the lights from the house. The pool is bordered by a low wall and a glass railing. In the foreground, there is a wooden slatted bench. The background is filled with palm trees and other tropical vegetation, all set against a deep blue night sky. The overall atmosphere is one of luxury and modern design.

# **WHEN HOME CUSTOMISATION ENDS** PROINSERMANT BEGINS

Our starting point is the need of our customers and our goal is always the level of excellence only 35 years of innovation can achieve. There are no limits when you have the best professionals.

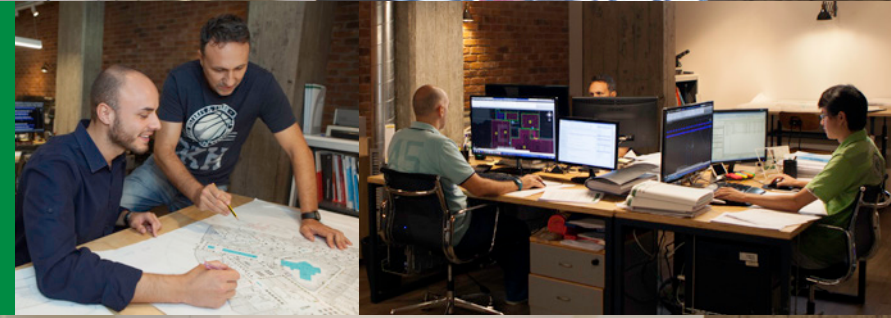

At Proinsermant we have answers to all your requirements, from the early stages and up to the completion of the work to be carried out. To do this, we design the technical project in collaboration with prominent architectural studios, performing the installation by paying attention to the slightest details and implementing rigorous preventive maintenance plans.

The result: Facilities that combine aesthetics and efficiency, robustness and centralised control functions. In other words: Dream homes.

# ENGINEERS AND DESIGNERS AT THE SERVICE OF YOUR IMAGINATION

"However challenging from the technical point of view, we implement your ideas with utmost creativity and responsibility"

# IDEAS DESIGNED WITH PINPOINT ACCURACY

"Careful aesthetics drawn from exhaustive technical studies"

We are aware of the importance involved in adapting with flexibility to the specific requirements of each project. For this reason, we work on the design together with the customer, taking into account different options and choosing the most appropriate ideas for implementing the installation and, therefore, for its optimal operation in the future.

The high demands of the major architectural firms with whom we collaborate, compel us to combine comfort and aesthetics with technology, functionality, and reliability in every space. All this with the aim of achieving the highest levels of technical design, mainly applied to the residential market along with other construction sectors.

Our portfolio includes the basic planning of facilities, final projects, energy rating, and much more... It is also worth highlighting that all the technical projects we undertake exceed the safety and efficiency requirements of the professional certifications issued by the Ministry of Industry, Energy and Tourism.

We guarantee quality, efficiency and regulatory compliance at all times, supervised by our Technical-Legal Department.

¿QUÉ TIENEN EN COMÚN  
EL ASCENSOR MÁS RÁPIDO  
DEL MUNDO Y EL **AIRE  
ACONDICIONADO**  
MÁS FIABLE DEL MERCADO?

La tecnología más avanzada de Mitsubishi Electric.

Tanto si estás ascendiendo a más de 150 km/h hasta el último piso de un rascacielos o disfrutando de una temperatura perfecta durante todo el año, lo haces con productos diseñados y fabricados con la tecnología más avanzada del mundo. Nuestros aires acondicionados son energéticamente eficientes, fiables y han superado exhaustivos controles de calidad. Así, cada vez que disfrutes de tu aire acondicionado, recuerda que hay alguien que está batiendo un récord de velocidad en ascensor.

IT IS A QUALITY STANDARD**

*"Enthusiasm, motivation and a committed entrepreneurial spirit are just a few of the traits that define and set us apart"*

# THE BEST KNOW-HOW AND CONSULTANCY

"Each new project is testimony to hundreds of previously implemented projects"

At Proinsermant we have the best technical and human resources necessary to ensure both the highest quality, with pinpoint accuracy, and our high customer response capacity in each and every one of the projects we perform.

We are committed to constantly incorporating new technologies with state-of-the art resources in our processes, while keeping up to date with new trends in the sector and the most recent studies concerning R&D, environmental commitment and sustainability, energy efficiency, innovative designs and much more.

Our goal is to achieve the maximum comfort of our customers, giving shape to their dreams and turning them into reality through modern works and functional buildings.

Our services include:

- Consulting, with the best professional advice
- Recording and analysis of energy consumption
- Inspection of equipment and systems
- Energy rating
- Analysis of electrical supply needs
- Energy-efficient alternatives: solar, aero-thermal, geothermal, inverter HVAC, lighting...

CUBIERTAS AUTOMÁTICAS DE PISCINAS - AUTOMATIC POOL COVERS

Aumente la temperatura de su piscina de 5° a 7°C con nuestras láminas solares!  
Heat up the water of your pool between 5° and 7°C with our solar slats!

#### SEGURIDAD Y PROTECCIÓN SECURITY AND PROTECTION

Impide la inmersión accidental de niños, adultos y animales domésticos.  
Prevents accidental immersion of children and pets.

#### ENERGÍA SOLAR SOLAR ENERGIE

Caliente el agua de su piscina entre 5 y 7 grados con nuestras láminas solares de policarbonato.  
Heat up the water of your pool between 5 and 7°C with our solar slats.

#### FÁCIL DE UTILIZAR EASE OF USE

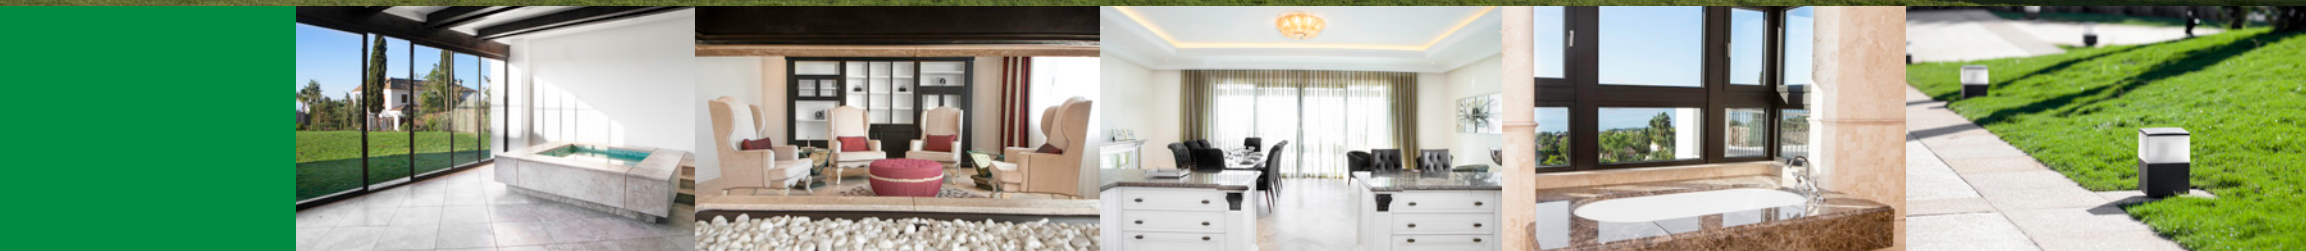

Apertura y cierre automático. Tan sencillo como pulsar un botón o con mando a distancia. The pool cover opens and closes automatically.

# TURNKEY DREAMS

Harmony, light, technology, textures, sophistication, green spaces... elements that combine perfectly in our projects and have become the hallmark of our success.

# WHEN WE SAY EVERYTHING, WE MEAN EVERYTHING

"We offer the possibility of a comprehensive service in which we manage all the technical installations through a single point of contact"

Over the years, at Proinsermant we have set up a comprehensive and multidisciplinary team of professionals capable of managing the works on-site, consisting mainly of:

- Engineers
- Programmers
- Audiovisual technicians
- Plumbers
- Electricians
- Refrigeration technicians... among others...

Our technical staff is perfectly coordinated and has the management capacity to perform all the necessary and relevant modifications during the work.

In addition, these changes are recorded and filed by works supervision engineers for their subsequent inclusion in the project documentation and calculations of the Design Department to ensure we always have total control of the processes and a global vision of the actions that have been implemented throughout the project.

## Siente un verdadero confort con la Climatización Invisible Uponor

Ganarás  
m²

Entre un 3% y un 5%  
más de espacio útil, al  
eliminar aparatos  
emisores  
(ej.: radiadores)

Ganarás  
en salud

Sin corrientes de aire,  
no genera ácaros ni  
polvo, y además es  
totalmente silencioso

Ganará  
tu bolsillo

Ahorra más de  
un 25% de energía

Ganarás  
en confort

La temperatura  
más agradable en  
cada estancia

# RELAX AND ENJOY: YOUR DREAM INCLUDES PEACE OF MIND

Take a deep breath, enjoy the views and let yourself go... your home is already in the best hands.

# DAILY SATISFACTION: AFTER-SALES AND MAINTENANCE

At Proinsermant we work every day to reduce incidents through preventive maintenance visits and responding quickly to any unforeseen event.

We have our own fleet of vehicles and offer a permanent 24-hour service, 365 days of the year for major breakdowns, free for customers with maintenance contracts.

These services are exclusively for the installations carried out by our company, as a sign of the commitment and added value that we always strive to give our customers.

# YOUR HOUSE CAN BE MORE THAN JUST A HOUSE: TECHNOLOGY AND HOME ENTERTAINMENT

We work with strategic partners, mainly recognised companies in the sector, to make every day in your home as comfortable and pleasurable as possible, through innovative home automation, entertainment and comprehensive remote control solutions.

# Crestron Integrated Home Technology

*An elegant home automation technology tailored to your lifestyle*

- Easy and intuitive control of your environment: lighting, HVAC, shades, security systems, AV distribution and more
- With Crestron solutions, take control of your home with just one button press from a Crestron touch screen, a keypad or your mobile device
- Crestron does not add technology to your life, we simplify it
- Crestron makes your lifestyle more comfortable, convenient, and entertaining
- Crestron delivers a fully integrated control solution for the residential market
- Crestron offers a unique support: more than 90 offices around the globe, a 24/7 support and Crestron Technical Institute

Villas, housing developments, apartments, bungalows... Our motivation is focused on turning your project into your dream home.

# ADVANCED ENGINEERING AND DESIGN ARE NOT JUST FOR THE HOME

Our projects also stand out for their optimisation of space and resources, which is why we have made advances in other sectors such as the design of workspaces. We generate better workflows and atmosphere under the Proinsermant seal of quality.

# HOW HAVE WE ACHIEVED EXCELLENCE?

Global vision with focussed on each and every detail. This is achieved by combining 3 key factors:

**PROVEN EXPERIENCE + COMMITMENT TO CONSTANT INNOVATION + ABILITY  
TO HANDLE ALL PHASES OF THE PROJECT**

Thanks to our clear focus on incorporating these concepts as hallmarks of our corporate philosophy, we have experienced constant growth throughout our history, offering services in professional sectors, retail, hotels, etc., and we have been rewarded with the best endorsement: the trust of our customers.
